PROFESSIONAL SUMMARY

An Information Technology student at President University, specializing in Cyber Security with comprehensive knowledge in ethical hacking, digital forensics, and network infrastructure. Highly skilled Full-Stack, Backend, and Security Engineer with hands-on experience building specialized risk assessment platforms, developing custom cryptographic protection middleware, and implementing advanced security protocols. A detail-oriented problem solver and proven leader, eager to contribute technical expertise to a professional cybersecurity or IT role.

EDUCATION

Bachelor of Computer Science, President University

September 2024 - Present

- GPA: 3.69 / 4.00
- Concentration: Cyber Security (Ethical Hacking, Cryptography Data Security, Digital Forensics)

PROJECTS

ISO-SHIELD (AI-Assisted Security Audit Platform)

February 2026

Full-Stack & AI Engineer

- Developed an automated digital audit platform structured around global security standards (ISO/IEC 27001:2022) and web vulnerability frameworks (OWASP Top 10).
- Created a quantitative risk assessment engine that automatically calculates threat levels and compliance scores across control domains.
- Integrated an intelligent AI assistant utilizing RAG pipelines to automatically analyze audit findings and provide concrete remediation guidance.
- Implemented production-ready features including secure role-based access, encrypted evidence storage, and an automated PDF report generator.
- Tech Stack:** Next.js, Supabase, PostgreSQL (pgvector), Redis, Tailwind CSS, Groq API, HuggingFace Embeddings.

Cryptography Web Application Firewall (Crypto-WAF)

January 2026 – February 2026

Backend & Security Engineer

- Developed custom Laravel middleware and MySQL database architecture to provide Layer 7 protection against SQL Injection (SQLi), Cross-Site Scripting (XSS), and Brute Force attacks.
- Secured application APIs utilizing AES-256-GCM encryption, HMAC-SHA256 digital signatures, and Redis-based nonce validation to mitigate Replay Attacks.
- Designed and integrated automated forensic logging and real-time IP Blacklisting mechanisms to dynamically block identified attackers.
- Tech Stack:** Laravel, MySQL, Redis, AES-256-GCM, HMAC-SHA256.

Campus Sport Booking Application

November 2025 – December 2025

Android Developer

- Designed and developed a mobile application dedicated to managing campus sports venue reservations based on venue types and specific time slots.
- Implemented the application frontend and backend logic using Java within the Android Studio environment to ensure a seamless user experience.
- Tech Stack:** Android Studio, Java.

AWARDS & ACHIEVEMENTS

1st Place Team of Capture The Flag Batch 2, President University

April 2026

- Achieved Top 1 rank as a team in the President University CTF Batch 2. Solved complex challenges in Digital Forensics and Steganography, demonstrating practical skills in multiple cybersecurity domains such as artifact analysis, file carving, metadata inspection, and Python-based Least Significant Bit (LSB) decryption techniques.

Top 8 Team of Capture The Flag Batch 1, President University

October 2026

- Achieved Top 8 rank as a team in the President University CTF Batch 1. Solved challenges in Web Exploitation, Cryptography, OSINT, and Miscellaneous, demonstrating practical skills in multiple cybersecurity domains such as vulnerability analysis, cryptographic cipher auditing, and risk assessment utilizing the CVSS framework.

CERTIFICATIONS

Junior Network Administrator, BPPTIK Kominfo

November 2025

- Awarded as a certified competent participant in the Vocational School Graduate Academy (VSGA) Batch 5 in the Network and Infrastructure domain; demonstrated proficiency in configuring routers and switches using Cisco Packet Tracer, as well as managing IP addressing (IPv4/VLSM) and network troubleshooting.

ORGANIZATIONAL & LEADERSHIP EXPERIENCE

Mapalus Peduli (Kawanua Community, President University)

March – April 2026

Project Manager

- Spearheaded and executed a community charity and social engagement initiative in collaboration with Panti Asuhan Yohanes Jababeka, representing the Kawanua student community.
- Coordinated and led 6 specialized divisions, Event Organizer (EO), Public Relations (PR), Multimedia & Documentation (MTDD), Logistics (LOGIS), Food & Beverage (FNB), and Fundraising (FR) to ensure seamless and synchronized project execution.
- Managed end-to-end event timelines, resource allocation, and donation distributions while successfully fostering deep communal bonding and meaningful engagement with the orphanage children and administrators.

Lens of Life Social Project (President University)

June – July 2025

Event Organizer (EO)

- Organized a digital literacy and community development program tailored for children at Taman Baca Saung, Cikarang Timur, to bridge the digital skills gap.
- Developed and delivered hands-on educational sessions covering the fundamentals of photography, videography, and mobile-based creative video editing using CapCut.
- Designed and spearheaded a vital awareness campaign on digital privacy, educating children on responsible content recording practices and the prevention of unauthorized content creation.
- Successfully empowered participants with essential digital media skills and technology insights, measurably boosting their confidence in creative execution and responsible digital expression.

SKILLS

Software & Tech Stack: Next.js, React.js, Node.js, Express.js, Laravel, Tailwind CSS, PostgreSQL (pgvector), MySQL, Supabase, Redis, Groq API, Wireshark, Autopsy, Exiftool, Cisco Packet Tracer, Android Studio, Git/GitHub, Virtual Machines (Kali Linux, Ubuntu, WSL), Python, C++, PHP, Java.

Soft Skills: Critical Thinking, Analytical Problem Solving, Adaptability & Continuous Learning, Attention to Detail, Team Collaboration, Cross-Functional Leadership, Project Management, Event Planning, Mentoring.
